Get 4 Games for \$3 : Hey there guys! Alex here, don't worry, i've not started working with some shady companies, no no, these are my games! I'm doing a sale over at itch for all my games, for 3 dollars. Here's the games: - A Shawn Story : Our most popular game, which has had over 15k downloads across different platforms. It has around 16 endings. The story premise is that you're late for work - AGAIN! - Dies Natalis : Our least popular game, which has literally tens of downloads. The story is you've

come home from. whatever you do and discover that there are many many dark figures in your home. - MISSINGOINGONE : Our complete middle of the ground game, this game got a completely average critic response. The story is you wake up in the street (?) and everyone's gone. Where are they? - Play The Game : Our first ever published game, it's an classically shit game with no real gameplay. The "story" is that you try to play a game and just doesn't work.. Bounce Into Action! : Welcome one and all to the Bouncing DVD : The Game Steam Page! I'm a one man team who loves making games! This game is a fun, timewasting free to play game. The original game will always be free to play, there might be DLC coming in the future that will cost a small amount, 5 bucks or less, that won't be pay to win. I believe in fair gameplay.. Sale? Sale!? SALE! : Helllllllooo.. Bounce Onto Steam! : We're out, guys! The game is out, woo! We've decided to delay the game's DLC for a small period of time, enjoy the game!. Big Update! (Plus other stuff) : Hey bouncers! How's it going? We've just released the first ever update (woo!) so get hyper! This update includes the most requested fix, so that's great, turns out it was a small overlooked thing and it's all good now! In the meantime, we've also set up a discord! Woo, it's a bit bare bones now but i'm sure as a community we can make it even better. Links below I also have a patreon, so if you fancy chucking us a couple (or a few) bucks, we'd be grateful - links below! We also have a twitter, follow us there - link below!
